

## Wait List Information

[RCW 43.86A](#) authorizes the Office of State Treasurer to make up to \$15 million available for the Linked Deposit Program. When the program operates at its authorized capacity, a wait list is in place. Contact [The Office of State Treasurer](#) for up to date information on any wait list.

Currently, the Linked Deposit Program can fund interest rate reductions on a maximum of \$15 million of loans to veteran or servicemember owned businesses at any given time.

When a wait list exists, financial institutions wishing to enroll loans to the program should continue to submit the Loan Enrollment form to WDVA for certification verification and loan eligibility. However, verification of certification and loan eligibility does not mean the loan will receive funding through the Linked Deposit Program on any specific date. Participating banks should not automatically add new loan amounts to their monthly reports unless contacted by The Office of State Treasurer.
