

Traumatic/Acquired Brain Injury Program

THE TBI PROGRAM AT *YOUR* WDVA OFFERS SERVICES
AND PROVIDES RESOURCES RELATED TO TBI/ABI

Why Focus on TBI?

- Over 8% of Washington residents are veterans.
- As many as 1 in 5 that served in recent conflicts may have sustained a TBI/ABI.
- 79% of Washington Veterans do not get health care at the VA and receive health care from community providers.
- These veterans are our neighbors, friends, family, and employees who struggle on a daily basis with an invisible and often unrecognized disability.
- The leading cause of TBI in a war zone is from exposure to blasts though they can occur from everyday activities such as falls or car accidents
- Symptoms can be subtle and often go unnoticed or are attributed to other conditions.
- Undetected, TBI/ABI can cause severe problems in a veteran's life.
