

Using Assistive Technology for Working Farmers

Washington AgrAbility focuses on keeping individuals working and functioning in rural communities who experience limitations such as injury, disease or aging.

Learn how assistive technology resources and technical expertise enhance the quality of life for those working and living in rural communities.

This training provides an overview of AgrAbility national history; available Washington State services and technical support; and a review of resources to find products, designs, ideas and techniques to improve safety and independence.

Please note:
this workshop
will not be
recorded.

FREE Workshop Online July 14, 2020
Registration Required 10am - 12pm

Please register by July 13 by using the link below:
