

# Washington State Department of Veterans Affairs News Release

**November 23, 2020**

**Walla Walla:** We have received confirmation that two of our employees at the Walla Walla Veterans Home were diagnosed with COVID-19, the employees are now self-isolated at home.

We are working closely with the Walla Walla County Regional Health District and following guidance from CDC, CMS and our State Department of Health to ensure we are taking every possible precaution.

Based on the positive test results and positive rates in Walla Walla County, staff will continue to be proactively tested twice each week, until CMS guidance recommends moving to weekly testing. The affected neighborhood will be closed to any visitation for the next 14 days.

Additional environmental cleaning took place in areas that the staff member worked and the Walla Walla Veterans Home will conduct enhanced surveillance, including 4-hour symptom and temperature checks, for residents in the affected units for the next 14 days. Residents in the affected neighborhood will be proactively tested.

We are asking our staff to pay close attention to whether they have any symptoms, including the presence of a fever. As part of our ongoing screening process, all staff are screened upon arrival at work each day. This process includes a series of questions around whether symptoms are present and a temperature check. In addition, staff will take their temperature at least twice a day and are also asked to report any symptoms that occur after coming to work.

The Walla Walla Veterans Home, is following guidance from the Centers for Medicare and Medicaid Service, which requires regular testing of all long-term care facility staff. This may result in the identification of asymptomatic carriers, but is an important tool in defending against COVID-19.

We are notifying residents, staff and family representatives via email or letter and a post to the website. We have informed employees of their possible exposure in the workplace but we will maintain confidentiality as required by the Americans with Disabilities Act.

In an effort to provide information as quickly and accurately as possible, we have developed a website to provide information to families and resident representatives, <https://www.dva.wa.gov/covid> Media inquiries should be addressed to [heidia@dva.wa.gov](mailto:heidia@dva.wa.gov).
